

endicate®

Electronic Temperature Monitoring Solution

Endicate® is an extremely accurate and user friendly temperature monitoring solution that will protect the integrity of your product.

Highly regulated shipments present a challenge throughout shipping and storage. To have confidence in your product, ATI's Endicate electronic temperature monitoring solution provides reliable information about temperature excursions upon receipt of shipment. Endicate provides the assurance you need to guarantee a product's quality with a temperature range from -20°C to 70°C and 4 easily programmable alarms. Endicate can be customized with your branding and configured based on your tracking needs.

UTILIZING ENDICATE

Endicate is easily deployed with the push of a button. The large display screen gives a clear, readable notification detailing whether the shipment is okay or if a temperature excursion has been reached. This functionality gives you and your customer the confidence necessary to make an immediate decision.

DIMENSIONS

Endicate can be custom-labeled with your branding.

Not to be submerged in water

Application	Adhesive backed
Configuration	Custom configuration and delay start
Availability	Single use
Time and Temperature	Identify date and time alarm triggered for all 4 alarms

Endicate's advanced time and temperature functionality allows you to pinpoint exactly when a product has been exposed to a critical temperature. The device displays a sequenced 6-digit code for each alarm that can be used to determine the exact date and time of each of the 4 alarms. This visibility allows you to assume responsibility throughout your supply chain.

Have the confidence you need to ensure your product travels safely and your brand is protected.
